Virtual Learning

We had two of our in-house Google experts work with and train our virtual teachers on every aspect of the virtual schedule:

- * The first training took place August 18-20
- * One on one training during LEAP
- * First week of school- the trainers visited the teachers to help troubleshoot.

Change in Learning

We informed our parents to remain in the mode of learning for one semester, but we have had lots of requests to change for various reasons.

- Our procedure is that they complete a Mode of Learning Change form and submit to the principal. The principal will check numbers and determine if we can make the move and keep the roster sizes realistic and safety measures in place.
